

Mehendi Competition

On 31st October 2023, the Department of Mathematics under the Faculty of Sciences at Baba Mastnath University organized a captivating Mehendi Competition as part of a department-level cultural fest. The event, convened by Dr. Manoj Kumar, with the support of co-convenor Dr. Sangeeta Malik, provided a platform for students to showcase their artistic flair and creativity through traditional mehendi designs.

The Mehendi Competition celebrated the art of henna application, a cultural tradition deeply rooted in Indian heritage. Students from the Department of Mathematics enthusiastically participated, crafting intricate and innovative mehendi designs that beautifully blended traditional and contemporary styles. The competition created a vibrant atmosphere, with participants exploring the creative dimensions of this ancient art form.

The event encouraged students to express their creativity while appreciating the cultural significance of mehendi in Indian traditions. The competition was conducted in a well-organized manner, ensuring fairness and active engagement from all participants. The enthusiastic participation of students reflected their artistic talent and passion for cultural activities.

The Mehendi Competition highlighted the importance of preserving and celebrating cultural heritage in a rapidly globalizing world. Such events not only foster creativity but also promote

cultural awareness and a sense of pride in traditions among students. By encouraging artistic expression, the event supported holistic development, enabling students to develop essential skills such as precision, patience, and innovation.

In a broader context, this initiative aligns with the United Nations Sustainable Development Goals (SDGs), particularly SDG 4 (Quality Education) and SDG 11 (Sustainable Cities and Communities). The competition nurtured creative skills and cultural appreciation, contributing to the creation of inclusive and vibrant communities that respect and celebrate heritage.

The Mehendi Competition witnessed enthusiastic participation from students of the Department of Mathematics, who displayed their artistic talent and creativity through exquisite designs. The event provided a platform for participants to connect with their cultural roots and gain recognition for their artistic abilities. By fostering a sense of community and cultural pride, the

competition left a lasting impact on students, inspiring them to explore and cherish traditional art forms.

The Mehendi Competition organized by the Department of Mathematics at Baba Mastnath University was a meaningful cultural initiative that celebrated creativity and tradition. By providing a platform for artistic expression and cultural appreciation, the event reaffirmed the university's commitment to fostering holistic development and preserving cultural heritage. Through its alignment with global sustainability goals, the competition contributed to building a more inclusive and culturally aware academic community.
