

World Environment Day

On 5th June 2024, Baba Mastnath University celebrated World Environment Day with a social awareness program organized by the N.S.S. Unit under the Faculty of Humanities. The event aimed to raise awareness about the importance of environmental conservation and inspire individuals to adopt sustainable practices in their daily lives. The program was graced by esteemed dignitaries, including Dr. H. L. Verma, Vice-Chancellor of the university, and Mr. Dinesh Kumar, Regional Officer of the Pollution Control Board, Haryana. The event served as a platform to discuss the pressing environmental challenges faced by the region and the world.

The program began with an inaugural address by Dr. H. L. Verma, who highlighted the crucial role that academic institutions play in promoting environmental awareness. He spoke about the university's responsibility in fostering sustainable practices and nurturing the next generation of leaders who can combat environmental degradation. Following this, Mr. Dinesh Kumar delivered a detailed session on the current environmental challenges faced by Haryana and the measures being taken by the Pollution Control Board to address them. He also

discussed the significant impact of pollution on public health and the environment and urged individuals to contribute to reducing pollution through responsible behavior.

The event included interactive discussions, encouraging participants to explore actionable solutions for waste management, pollution reduction, and the conservation of natural resources. The co-conveners, Dr. Parmila and Dr. Vijay Dangi, ensured the smooth conduct of the event, engaging participants and fostering dialogue on ways to make sustainable changes in their communities.

World Environment Day is a vital occasion that serves as a reminder of the critical need to preserve and protect the environment for future generations. The event at Baba Mastnath University underscored the urgency of addressing environmental challenges such as climate change, deforestation, and pollution. By educating participants about these issues and the solutions available, the event aimed to instill a sense of responsibility among individuals to take proactive steps in mitigating environmental harm.

This initiative directly aligns with the United Nations Sustainable Development Goals (SDGs), particularly SDG 13 (Climate Action), SDG 12 (Responsible Consumption and Production), and SDG 15 (Life on Land). The discussions and activities highlighted the importance of sustainable practices in everyday life, contributing to global efforts aimed at combating climate change, preserving biodiversity, and ensuring a sustainable future for all.

The event saw the active involvement of 26 participants, including students and faculty members. The program provided valuable insights into the environmental challenges that our society faces and emphasized the collective efforts required to address them. Participants were inspired to incorporate sustainable practices into their own lives and take part in community-driven initiatives that promote environmental conservation.

The World Environment Day celebration at Baba Mastnath University was a meaningful and impactful initiative that emphasized the importance of environmental awareness and the need for collective action. Through engaging discussions and informative sessions, the event not only raised awareness about critical environmental issues but also encouraged participants to take personal responsibility in protecting the environment. This initiative reaffirmed the university's commitment to promoting sustainability and contributing to the achievement of the global Sustainable Development Goals (SDGs). By fostering dialogue and inspiring individuals to adopt eco-friendly practices, the event made a significant contribution to the ongoing efforts to create a healthier and more sustainable world.
